The Republican Party stands
for honest money and the chance
to earn it by honest toil.
WILLIAM MCKINLEY.

THE POLITICIAN.

Maj. McKinley's letter of acceptance
meets and exceeds the expectations of
the republicans. It is a masterly presentation
of the reasons why the republican
party asks to be again put in
charge of the government. Notwithstanding
its wide circulation through
the newspapers it will be sent out in
pamphlet form as a campaign document.
Every republican should not only
read and study this letter himself,
but he should try to get his neighbors
who are in doubt or who are opposed
to McKinley and Hobart to do the same.
It covers every issue in the campaign
and states the position of the republican
party so plainly that no man who
reads it can misunderstand, unless his
prejudice is stronger than his judgment.

The hurried departure for Chicago
this week of Chairman Faulkner, of
the democratic Congressional committee,
and Vice-Chairman Stevens, of the
silver National committee, for the purpose
of conferring with Chairman Jones,
of the democratic National committee,
who was forced by Bryan to make his
headquarters in that city, instead of in
Washington where he wanted to be, is
connected with the heavy demands
which the populists have been making
upon the democrats since they have
been housed under the same roof in
Washington. The utter failure of the
appeal of chairman Jones to the people
for contributions to the democratic
campaign fund will also be discussed
at the conference.

A gentleman just from New York
City says Senator Stewart gave McKinley
Protection and Sound Money a big
boost while he was in that city a few
days ago. Senator Stewart while discussing
the silver question, in the reading
room of a New York hotel, placed
great stress upon the prosperity of
Japan on a silver basis, and when his
attention was called to the great disparity
between wages paid for Japanese
labor and wages paid for labor in the
United States he became excited and
said: "To-h-h with wages," and during
a continuance of the discussion he
reiterated his contempt for the American
wage-earner, thus placing himself
alongside of Sewall, who is credited
with belonging to the class which believes
that a dollar a day is enough for
any workingman to make. As Senator
Stewart is the grand high priest of the
free silver clan his contemptuous opinion
of those who work for wages was
quickly circulated in New York and
elsewhere, and should be kept a-going
in order that the wage-workers may
know how they stand with the leaders
in the free silver movement.

Only unwise democrats will try to
make capital out of Chairman Hanna's
declaration that the republican party
has no hostility to silver. Speaking of
that declaration Chairman Hancock, of
the Republican Congressional committee
said: "The trouble is that the impression
sought to be created is that the
republican party is against the use of
silver entirely. It is nothing of the kind.
It wants to perpetuate existing
conditions with the very largest and
freest use of silver consistent with keeping
the silver dollar as good as a

gold dollar. Silver money circulates
now on a parity with gold. Ninety per
cent of the money in your pocket is
silver money. I do not see, therefore,
how any capital can be made out of Mr.
Hanna's interview. He believes, as we
all believe, that gold must be the ultimate
redemption, just as it is now."

Senator Butler, of North Carolina,
chairman of the populist National committee,
is said to be scheming to get
the Watson-Sewall business so mixed
up that both of them will be dropped
and a new man named by himself put
up as Bryan's running mate. He is also
trying to so manipulate things that the
populists will come out of the campaign
in better shape than the democrats, and
is much more anxious to bring that
about than he is to help Bryan. Butler
is a young man and he is nursing his
personal ambition and indulging in
some visionary hopes of future political
honors which will never be given to a
populist. He is a shrewd manager
than the democrats he has to cope with
and will make trouble for the democrats
before the campaign is over.

A TRADE JOURNAL'S SUMMARY.

Various Ways in Which Money May Be
Obtained.

To a man who has no money there are
several ways to get it—namely:

- (a) Beg it.
- (b) Steal it.
- (c) Borrow it.
- (d) Secure it by gift.
- (e) Trade something for it.

If we are to beg for it, we might just
as well do the best we can. Therefore a
dollar based on a gold standard is better
than a sixteen to one silver dollar,
which to-day is worth about 53 cents intrinsically.

If we are to steal it, we want the best.
A thief who would steal a silver dollar
in preference to a gold dollar would be
acquitted on the ground that he was insane.

If we borrow it, we want that kind of
money which will go farthest, for so we
can get along with a smaller loan.
Therefore a gold dollar is better to borrow
than a sixteen to one silver dollar.

If we are to secure it by gift, certainly
we should not deprecate that which we
are about to receive.

This brings us to the e, which is the
way most money is obtained. A pertinent
question for each of us to ask at
this time is: What have I got to trade
for money which I want? It may be
labor; it may be a horse or cow; it may
be lumber or shingles; it may be a sawmill.
At the present time we can trade
any of the above and get a gold dollar
for every dollar's worth of value, as may
be agreed upon between buyer and seller.
We can get a dollar which is worth
a dollar anywhere and everywhere.

Now, your labor or horse or cow or
lumber or machinery will be worth just
as much, or nearly as much, next year
as it is this, but if we have free coinage
at sixteen to one will the dollar which
you get in trade be worth as much as
the dollar you can get now? What will
that be worth? Can you tell? It may
be worth 53 cents or more or less. One
day this, one day that, but can anyone
tell? These are all pertinent questions,
and, when carefully considered, must
guide us in voting at the next election in
November, and do not lose sight of the
fact that if all the silver in the world is
coined into money you cannot get a cent
of it except by a, b, c, d, or e, above
referred to.—Lumber Trade Journal.

NEW QUARRYING METHOD.

An Albany Man Now Cuts Stone with
Wire Rope.

Those who have indulged in deep sea
fishing know how the fish line cuts
deeply into the hard wood of the gun-
wale as it is hauled in while taut. Even
an iron protection, after a time, shows
the wear of the rope, which is comparatively
soft. This gives a clue to the invention
of an Albany quarryman for
cutting stone. Instead, however, of
the Detroit Free Press, of hemp, he
proposes to use wire rope, and with this
he will carve the marble and stone right
out of its native bed. The wire is wound
in strands, and has a very rough surface,
powerful machinery gives a strong
and steady strain, and the stone, yielding
to the constant wear, parts, with
smooth edge. It would be easy enough
to cut the blocks after they are removed
from the quarry, but where the cleverness
of the inventor comes in is in devising
mechanism that can be applied to the
stone while in the quarry. This is
effected by sinking two parallel channels
in the quarry to a depth of little
greater than that of the lowest level of
the stone to be cut. The channels may
be from 20 to 100 feet, or more, apart.
At the bottom of each is made a small
hole to receive the foot ends of the
shafts of the machine. This is the only
preparation of the quarry that is necessary.
The ropes, which are coiled on
huge drums, are then passed around
the channels, and as the drums revolve
the cutting proceeds. Suitable brakes
are provided for the regulation of the
speed and pressure. The ordinary speed
of the strand is 800 feet a minute, so that
a mile length of it passes in six minutes.
While the strand is moving, crushed
stone or chilled shot and water can be
introduced to increase the attrition.
Far better, however, than either of these
is a composition obtained from the tailings
of a magnetic iron separator, which
costs about one-tenth as much as the
chilled shot. It does not leave the lines
caused by the shot, and it can be used
over and over again.

LI HUNG CHANG

Calls on the President at the Residence of
Ex-Secretary Whitney.

NEW YORK, Aug. 29.—President Cleve-
land, accompanied by Attorney Gen-
eral Harmon and Private Secretary
Thurber, arrived at the residence of
Hon. Wm. C. Whitney, Fifty-seventh
street and Fifth avenue, Saturday
morning. President Cleveland and his
party came down from Buzzard's Bay
on the yacht Sapphire, arriving at the
foot of Twenty-sixth street at 8:30
o'clock.

Mr. Whitney, who had just arrived
from Newport, received the president
and his party. After breakfast at the
Metropolitan club, the president and
party returned to the Whitney man-
sion to await the arrival of Li
Hung Chang. No invitations had
been issued and no representatives
of the press being admitted. Li Hung
Chang arose at 6 o'clock Saturday
morning. After partaking of a light
breakfast prepared in Chinese fashion,
served in an apartment adjoining his
bedroom, the ambassador repaired to a
third room in his suite on the first floor
of the Waldorf where he smoked Turk-
ish cigarettes and looked over his en-
gagements for the day.

His smoke finished, he repaired across
the hall, where he paid a formal visit
to Secretary of State Olney, which last-
ed from 8:30 to 9 o'clock. This visit
Secretary Olney will return later in the
day.

To newspaper men who sent up their
cards Li Hung Chang sent back word
that he regretted that he was too busy
to see them, but stated that he was
feeling in good spirits.

At 10:40 Li Hung Chang left the Wal-
dorf to pay his respects to President
Cleveland at the residence of Wm. C.
Whitney. He was escorted by the
Sixth cavalry.

APOLOGY MADE

By the United States Government for the
Lynching of Italian Citizens.

WASHINGTON, Aug. 29.—The report of
Gov. Foster, of Louisiana, upon the
lynching of three Sicilians charged
with murder and confined in the parish
jail of Hahnville, below New Orleans,
in respect to which the Italian ambas-
sador, in the name of his govern-
ment, has asked reparation from the
United States, has just been received at
the state department. The governor
makes the customary reply in such
cases; that the perpetrators of the deed
are unknown to the authorities, who
are taking all possible steps in the mat-
ter. This reply was communicated to
Baron Fava with an expression of re-
gret on the part of the United States
government that subjects of the king
of Italy should have been dealt with in
this lawless manner. The apology
will probably be followed by an offer
of pecuniary compensation, as in the
case of the alleged Mafia murderers.

SCENES OF CARNAGE.

Armenians in Turkey Slaughtered Like
Sheep—Four Thousand Dead.

LONDON, Aug. 29.—The Daily News
Saturday morning publishes a dis-
patch from Constantinople under date
of Thursday, saying that besides the
bombs which they possessed, the seizers
of the Ottoman bank had 16 pounds
of dynamite. Only nine of the number
forming the party that seized the bank
were alive when a decision to surren-
der was reached.

Fearful scenes, the dispatch says,
were enacted Wednesday night, espe-
cially in the Topanes, Hass Keni and
Kissim Hacha districts, where mobs of
Lazes and Kurds of the worst charac-
ter looted shops and residences and
murdered everybody whom they sus-
pected of being an Armenian or sympa-
thizer with the Armenians. A moder-
ate estimate places the number of
killed at between 3,000 and 4,000.

WALLING WILL HANG

Unless Judge Helm Can Be Soon Located—
No Record Filed Before the Court of
Appeals.

FRANKFORT, Ky., Aug. 29.—Col. Wash-
ington did not secure an extension of
time from the court of appeals in which
to file the record in the Walling case.
He will have to induce Judge Helm to
act, and may be able to reach him by
telegraph and arrange matters by Sep-
tember 3, when the time for filing ex-
pires.

Judge Helm is in the northern part
of Michigan somewhere and can not be
found. His signatures to the papers
is absolutely necessary, unless, in the
meantime, the court of appeals should
decide the case of Jackson, on which
would hinge the action in the Walling
case. Stenographer Day still has the
transcripts and will refuse to let them
go unless he is paid for his services.

Czar and Czarina Leave Vienna.

VIENNA, Aug. 29.—After a grand pa-
rade of the troops in honor of the czar
and czarina Saturday morning the
Russian imperial party were accom-
panied to the railway station by Em-
peror Francis Joseph and the Austrian
archdukes who bade the czar and
czarina farewell. Immense crowds of
people were massed in the streets and
cheered the visitors with the utmost
enthusiasm.

Big Blaze in Hamburg.

HAMBURG, Aug. 29.—A most destruc-
tive fire has taken place upon the pre-
mises of the export Lagerhaus-Gesell-
schaft in the suburb of Steinwerder.
The loss in merchandise will amount
to several million marks.

Brooklyn's Official Trial Trip.

DELAWARE BREAKWATER, Aug. 29.—
The cruiser Brooklyn passed in at 9:25
o'clock Saturday morning on her re-
turn to Philadelphia after the success-
ful official trial trip off the Massachu-
setts coast.

Post Office Robbers Arrested.

WASHINGTON, Aug. 29.—Inspector

partment that he had arrested John
Daly and James Young for the robbery
of the post office at Clark, Neb.

Japanese Cabinet Officers Resign.

YOKOHAMA, Aug. 29.—Marquis Ito,
the prime minister, Baron Ito, secre-
tary of the cabinet and Mr. Itasagi,
minister of the interior, have resigned.

MUST COMPLY.

The Administration Takes a Pre-
liminary Step Toward

Compelling the Turks to Respect the
Peremptory Demand

For \$100,000 Indemnity for the Destruction
of the American College and Other
Property at Harpoot and Other Por-
tions of the Turkish Empire.

WASHINGTON, Aug. 29.—It is impos-
sible to learn at the state or navy de-
partment Friday whether any assur-
ances have been received from Turkey
that Minister Terrell will be permitted
to have the naval support of a ship fly-
ing the stars and stripes near his lega-
tion. It appears, however, that the
administration has contemplated for
some time the dispatch of the Bancroft
to Constantinople, as shown by a letter
addressed by Mavroyeni Bey, the
Turkish minister, to Secretary Olney,
last January, in which Mavroyeni
says:

"His Excellency Tewfik Pasha has just in-
formed me that the sublime porte regrets that
it can not comply with Mr. Terrell's request
for permission for the Bancroft to pass
through the strait, that vessel having been
authorized to remain at the disposal of the
the United States legation to Constantinople.

Your excellency knows perfectly well the
earnest and sincere desire of the imperial
government to do all in its power to strength-
en, if possible, the ties of friendship which
unite the two countries, but in this case a
certain fact is involved, to-wit: That only the
signatory powers of the treaty of Paris enjoy
the right to have vessels of war permanently
at Constantinople at the orders of their re-
spective embassies. Now, the United States
government does not appear in the number of
signatories of that treaty. I am, consequently,
sure that your excellency will be pleased
to take the foregoing into consideration."

If any reply was made to this letter,
or if any correspondence followed or
preceded it, that correspondence is not
obtainable.

It is believed in naval circles here
that the preliminary orders sending
the Bancroft to Constantinople consti-
tute the first step in the administra-
tion programme to compel Turkey to re-
spect the peremptory demand for full
and immediate satisfaction for \$100,000
indemnity made last November for the
destruction of the American college
and other property at Harpoot and a similar demand for the burning
of the college at Marash. It is be-
lieved this will be enforced before the
close of the present year, even if it
be necessary to detach all the battleships
and big cruisers from Adm. Hunces
fleet for the purpose.

TERRIBLE DEATH

Of a Female Aeronaut at Clayton, Mo.—
Fell 2,500 Feet.

ST. LOUIS, Aug. 29.—Mrs. George W.
Hibbard, known professionally as Vic-
toria Leroy, fell from her balloon Fri-
day at Clayton, St. Louis county, a dis-
tance of 2,500 feet. During each day
of the county fair at Clayton this week
she has made successful ascensions.
At 5 o'clock Friday evening she had
ascended about 60 feet when her para-
chute became detached and fell to the
ground. The balloon shot up rapidly.
The woman, in an effort to catch the
parachute, had partly fallen and was
hanging with one arm hooked over the
trapeze bar.

When the balloon was almost lost in
the clouds a dark speck was seen to
drop from it and the 3,000 spectators
groaned in unison. The frantic hus-
band rushed into his tent and seized a
pistol. As he pulled the trigger with
the weapon pointed at his heart, his
arm was seized and his life was saved.
The woman fell one mile north of the
fair grounds, first striking a tree.
Fragments of the body were left in the
tree. The Hibbards are residents of
some place in Eastern Pennsylvania.
Mr. Hibbard is delirious and may never
recover his reason.

Killed Her Step-Father.

SPRINGFIELD, Ill., Aug. 29.—One year
ago Albert Caldwell, aged 50 years,
was sent to the Joliet state prison for
five years for criminally assaulting his
step-daughter, Ella Gentry, at their
home in Carlinville. Thursday night
the woman shot and killed her step-
father, who had been released from
prison and had come home to work as
a coal miner. He had threatened her,
and when, with razor in his hand, he
attacked her on the street, she killed him.

Marvelous Results.

From a letter written by Rev. J.
Gunderman, of Dimondale, Mich., we
are permitted to make this extract: "I
have no hesitation in recommending
Dr. King's New Discovery, as the re-
sults were almost marvelous in the case
of my wife. While I was pastor of the
Baptist Church at Rives Junction she
was brought down with Pneumonia
succeeding La Grippe. Terrible parox-
ysms of coughing would last for hours
with little interruption and it seemed
as if she could not survive them. A
friend recommended Dr. King's New
Discovery; it was quick in its work
and highly satisfactory in results."
